This e-book offers general information about everyday car care for non-mechanics. It is not a replacement for your vehicle's owner's manual or professional advice. Always follow the manufacturer's instructions, work only on a cool engine with the car safely parked, and leave brakes, steering, airbags, high-voltage systems in electric and hybrid cars and other complex work to a qualified mechanic. Rules for inspections, tires and equipment differ by country.

Contents

Before you start 4

1. Getting to know your car 5
